

ERRATUM

Open Access

Erratum to: Association of environmental chemicals & estrogen metabolites in children

Erin Speiser Ihde^{1*}, Ji Meng Loh² and Lawrence Rosen¹

Erratum to: *BMC Endocrine Disorders* DOI 10.1186/s12902-015-0079-1

The original version of this article in *BMC Endocrine Disorders* [1] contained the following errors:

- The first sentence of the results section in the abstract incorrectly stated the following sentence:

100 % of subjects had detectable levels of at least one chemical in their urine, and 74 % had detectable levels of eight or more chemicals.

The corrected sentence should read:

100 % of subjects had detectable levels of at least five chemicals in their urine, and 74 % had detectable levels of eight or more chemicals.

- The citation of table 1 was misplaced in the text. Find the correct placement of the table citation below:

No significant differences were found in mean values between males and females or between age groups for any of the chemicals (Table 1).

The original article has been updated with the changes.

Submit your next manuscript to BioMed Central and we will help you at every step:

- We accept pre-submission inquiries
- Our selector tool helps you to find the most relevant journal
- We provide round the clock customer support
- Convenient online submission
- Thorough peer review
- Inclusion in PubMed and all major indexing services
- Maximum visibility for your research

Submit your manuscript at
